Our Technicians are trained with OEM trusted parts

"We tried the roller wheels for the locking cylinder from one of the resellers and they only last 30 days max. *The reseller product tore up one of the locking rings that was fine before we changed the wheel and we had to replace the locking ring.*
We had the wheels tested and discover the inner sleeve was extremely weak and the one from ***Ellis was 10 times harder and more durable. We now strictly buy from Ellis only."***

Longtime Ellis Customer

Please call Parts department to find out about recent parts sales
