

THE GREEN MACHINE

.5 gallons per lb. or less on light soil

.75 gallons per lb. on heavy soil
(yes heavy soil)

Highest quality wash available
(washes like an Ellis!)

Automatic separation of modules

Built in U.S.A.

SAVE WATER. SAVE ENERGY. SAVE SOME "GREEN".

THE ELLIS 360 - the world's first sequential tunnel washing system. Because it runs so green it's not only easy on the environment it's easy on your wallet too. And if that's not enough, the 360 was designed to be safe. Each 360 section rolls apart from the side providing easy access wherever needed. Be safe, save green, call 800.453.9222 and see the ELLIS 360 in action. You've got to see it to believe it.
